# Mission

- ◆ “I have come to reveal love, to bring love down to earth. We preach the Christ of Love, which supports and fills every heart; we preach the Christ of Wisdom, which illuminates every mind; we preach the Christ of Truth, which liberates and elevates the world.”
- ◆ “In these three principles lies the salvation of the world.”

# Krishnamurti, 1929

- ◆ “You are expecting the World Teacher and you want to believe that I am the World Teacher. But this is not true. I am human, just like you. I have my shortcomings and I’m working on myself to get rid of them. The truth is that the time for the World Teacher to appear has come. And he is already in the physical body on the earth; however, he is not among us now. The World Teacher is in Bulgaria and his name is Peter Deunov.”

# Principles of Pentagram

- ◆ Love - Life, Heart (Peace, Joy). > sublime feelings
- ◆ Wisdom - Light, Mind > clear thoughts
- ◆ Truth - Love + Wisdom > Freedom, Integrity > noble actions
- ◆ Justice/Equity
- ◆ Virtue/Goodness

# Three Key Principles – Love as Life for the Whole

- ◆ “The first principle on which the whole of existence is based is Love, which brings the impulse to life
- ◆ The second principle is Wisdom, which brings knowledge and light to the mind
- ◆ The third principle is Truth, which frees the human soul from bondage
- ◆ There is nothing greater than these principles; there is no straighter or surer path. In these three principles lies the salvation of the world.”
- ◆ The supreme goal of human life is that people should be free and to serve Love, Wisdom and Truth.

# Four Degrees of Human Culture

- ◆ Violence - Force, Domination, Power
- ◆ Law - Threat, Control (external)
- ◆ Justice - universal, excludes privilege
- ◆ Love - life for the Whole, Love as a Force in the Mind and a Principle in the Spirit
- ◆ Gandhi – Love is basically not an emotional but an ontological power, the essence of life, the dynamic union of the separated.

# Evolution of Consciousness

- ◆ One>Many>One - Involution-Evolution (Sunbeams)
- ◆ Indigenous Collective Consciousness (original participation)
- ◆ Individual Consciousness (atomism)
- ◆ Collective Consciousness - solidarity
- ◆ Cosmic Consciousness - mutuality
- ◆ Divine Consciousness - seamless spirit, *unity known and felt* - Golden Rule

# Evolutionary Trajectories (1)

- ◆ Spiritual trajectory is to embody spiritual values and qualities, to refine one's consciousness in terms of love, compassion, care, wisdom, integrity, humility.
- ◆ Mystical experience of Gnosis, > Theosis (Eastern Xian view)
- ◆ Exemplars are the great sages and saints who also demonstrate superhuman abilities (Jeff Kripal) – this is the inner and real path of human evolution
- ◆ Humans as two - socially constructed ego and Superhuman Self

# Evolutionary Trajectories (2)

- ◆ Towards the transhuman and post-human through the use of technology, merging of humans and machines – Homo Deus. This represents ‘progress’ > Technocratic social engineering
- ◆ Software upgrades engineered through implants and genetics, also enabling total surveillance and cognitive control. 5th generation warfare and perception management using (mis)information war (‘fact checkers’, psychological war and censorship (Malone, Hughes clandestine Omniwar, Corbett full spectrum dominance))
- ◆ Exemplar is the very clever and efficient human being (LH)– New Eugenics ‘Superman’ – biodigital convergence, neurotechnology
- ◆ This is *avidya* in spiritual terms!

# NWO 2.0 - Harari

- ◆ “The supreme value of this new religion is *‘information flow’*. If life is the movement of information, and if we think that life is good, it follows that we should extend, deepen and spread the flow of information in the universe. According to Dataism, human experiences are *not sacred* and Homo sapiens isn’t the apex of creation or a precursor of some future Homo Deus. *Humans are merely tools for creating the Internet-of-All-Things*, which may eventually spread out from planet Earth to cover the whole galaxy and even the whole universe. This cosmic data-processing system would be like God. It will be everywhere and *will control everything*, and humans are destined to merge into it.” (my italics)

# Prof Richard Falk

## *Public Intellectual*

- ◆ *“I fear that this emergent tyranny of algorithms, robots, devices, artificial intelligence, and political correctness in the digital age purporting to address our desires, fears and needs is the technologically contrived destiny awaiting humanity. It seems likely to erode the life of the mind, heart, and soul, draining life from that remnant of spirituality, awe, and mystery that has struggled to survive the onslaughts of modernity.”*

- ◆ Narrative control, unaccountable elites, blackmail
- ◆ Assassinations, CIA regime change playbook
- ◆ Senate armed services committee – profit from destruction and profit from reconstruction – ‘collateral damage’
- ◆ Values are money, wealth, power – secondary

# Woman

- ◆ Do not separate woman from life; in other words, Love from Life. A woman symbolises Love. By the concept of woman one should understand a human being who can give birth to the most beautiful form, who can give rise to the greatest force and who can manifest the greatest wisdom [Sophia]..the major characteristic of the woman is compassion.
- ◆ Work of Anne Baring

# The End of War

- ◆ I say there is only one power in the world that is able to annihilate war and to bring in peace. What is that power? The woman. Women have to direct their power to the entire world and say: “No more wars !” If all women get together and say; from today onwards we are not going to give birth to criminals, wars will be over thanks to all these women. And if each mother tells her son: “If you kill your brother, I will renounce you, you are not my son anymore” - the wars will come to an end. To achieve this - not only two or three women have to realize their task but all women have to raise themselves and begin for the salvation of the world.

# Women Will Save the World

- 💧 Women will save the world. ❤️🌟👑 No preachers, no bishops, no priests – women will save the world. Do you understand this? This is what is written in Scripture. This is how the question has been framed. The new culture does not call for women in the ordinary sense of the word, but for women of the new era – resolute, radiant women, women with luminous minds, generous hearts, and willpower as strong as diamond.

# 1919 Message to the Treaty of Versailles from Beinsa Douno

- ◆ “Those who love their enemies are people of the new future culture. And if those who are attending the conference in Versailles love their enemies, a real peace can be established between the peoples. If they do not love their enemies and peace is re-established, it will be temporary. Real peace is one that brings in the future culture of work, life and love. If the peace which contemporary people expect rests on the Law of Moses – an eye for an eye and a tooth for a tooth – the future will prove what kind of peace this is and what culture it will bring.”

# Ethics and Law

- ◆ Three kinds of life:
- ◆ Life for oneself, Life for society, Life for the Sublime Principle =
- ◆ The law of the part – of oneself
- ◆ The law of the majority – of the neighbour
- ◆ The law of the Whole – of the Divine
- ◆ = Serving oneself, society or God

# The Law of the Whole

- ◆ The part cannot detach itself from the whole. In Nature one cannot detach a part from the whole. All human faults arise from wanting to come out of the whole. People must come to understand that the part cannot exist outside the whole. Humans are a part of the whole and it should live in the whole and for the whole – the basis of this is an inner union with all beings.
- ◆ The whole lives for us and we must live for the whole.

# Life for the Whole

- ◆ The Universe is Unity in diversity arising from the One
- ◆ All beings form a whole as branches and leaves of the great cosmic tree of the cosmic organism – this is the basis of equity. Life is one, Mind is one, Love is one
- ◆ The abundance in the world comes from love, which brings all good. Wisdom distributes the good that love brings. Truth gives the Power to act.
- ◆ The supreme goal of human life is that people should be free and to serve Love, Wisdom and Truth.

# The New Culture

- ◆ Current culture is one of intelligence, while the new culture will be based on love
- ◆ The New Culture can arrive in two ways: (Chris Bache)
  - ◆ Awakening of human consciousness – inner transformation, a new wave
  - ◆ Path of suffering through catastrophic breakdown
- ◆ These new people will think of the good of our neighbours as their own good.
- ◆ Now is the time for the strong to manifest Love, to give all the warmth and light of Love.
- ◆ The appearance of Christ on earth is nothing other than the manifestation of Divine Love within the hearts and minds of men and women

# Prophecy 1944

- Some decades will pass before this Fire will come, that will transform the world by bringing it a new morality. This immense wave comes from cosmic space and will inundate the entire earth. All those that attempt to oppose it will be carried off and transferred elsewhere.

Although the inhabitants of this planet do not all find themselves at the same degree of evolution, the new wave will be felt by each one of us. And this transformation will not only touch the Earth, but the whole of the Cosmos.

The best and only thing that man can do now is to turn towards God and improve himself consciously, to elevate his vibratory level, so as to find himself in harmony with the powerful wave that will soon submerge him.

# Prophecy

- ◆ The Fire of which I speak, that accompanies the new conditions offered to our planet, will rejuvenate, purify, reconstruct everything: matter will be refined, your hearts will be liberated from anguish, troubles, incertitude, and they will become luminous; everything will be improved, elevated; the thoughts, sentiments and negative acts will be consumed and destroyed.

Your present life is a slavery, a heavy prison. Understand your situation and liberate yourself from it. I tell you this: exit from your prison! It is really sad to see so much misleading, so much suffering, so much incapacity to understand where one's true happiness lies.

# Prophecy

- ◆ Everything that is around you will soon collapse and disappear. Nothing will be left of this civilization nor its perversity; the entire earth will be shaken and no trace will be left of this erroneous culture that maintains men under the yoke of ignorance. Earthquakes are not only mechanical phenomena, their goal is also to awaken the intellect and the heart of humans, so that they liberate themselves from their errors and their follies and that they understand that they are not the only ones in the universe.

# The Great Awakening

- ◆ The earth, the solar system, the universe, all are being put in a new direction under the impulsion of Love. Most of you still consider Love as an insignificant force, but in reality, it is the greatest of all forces! Money and power continue to be venerated as if the course of your life depended upon it. In the future, all will be subjugated to Love and all will serve it. But it is through suffering and difficulties that the consciousness of man will be awakened.

# Globalisation and Wholeness

- ◆ Vision - Oneness of Life and Consciousness > Awakening - Individual and Collective > Regeneration of Earth systems
- ◆ “Humanity is moving towards collaboration, mutual aid and union. The question is knowing how to harmonise liberty and the collective, liberty and solidarity. At first sight these seem to be mutually exclusive – their harmonic coming together is the higher idea of humanity that can only be attained through Life for the Whole.”

# Inner Chaos – Forces at Play

## Harrie Salman

- ◆ Voices of four beings are speaking to us. First, the devil (Lucifer) to strive for power, money and glory; secondly, Satan (Ahriman) maintaining that human beings are machines and that technology will create a better world on a purely materialistic basis; third, the beast from the abyss (Sorat) encouraging us to follow our instincts, to make war, subjugate others, and create chaos. Finally there is the voice of Christ enjoining us to link with our higher Self, to be enlightened by Love, Wisdom, and Truth, to love others and to share the wealth of the Earth.

# Pyramid of Power and Governance

- ◆ Financial elites controlling central banks and investment funds of
- ◆ Networks of the elites – WEF, Bilderberg, CFR, Chatham House
- ◆ International organisations – UN, NATO, World Bank, EU, NGOs
- ◆ National political elites
- ◆ Networks of propaganda, psychological operations, censorship
- ◆ Intelligence (move up?!) and security services
- ◆ Common citizens

# The Mission of Europe

- ◆ Slavic culture promotes movements of love and brotherhood
- ◆ Development of the human spirit characterised in history of Middle Europe, 'between Western European economy and Eastern European spirituality, between matter and spirit, the desire for freedom and longing for brotherhood, between individualism and sense of community.'
- ◆ European aspiration: 'the development of the human spirit, humanity, human dignity, creativity, originality, freedom, equality and brotherhood, human rights, spiritual community built on love and wisdom

# Our Task

- ◆ To reclaim sovereignty from the elites and to establish a spiritual connection with the higher worlds mediated by a spiritualised science. Otherwise, ‘we are in danger of losing our soul and our spirit, of losing our freedom, our creativity, our moral judgement, our spiritual intelligence, and our loving and compassionate heart. We have to save our connection with the divine.’
- ◆ Crises lead to further centralisation of power and global governance. Democracy replaced by technocracy.

# Rudolf Steiner Threefolding

- ◆ This builds on the legacy of the French Revolution, combining the ideals of liberalism (liberty), democracy (equality) and socialism (fraternity). These correspond to the ideals of freedom in the cultural sphere, equality in the political sphere, and solidarity/fraternity in the economic sphere: ‘spiritual science for the spirit, religious freedom for the soul, fraternity for the body.’ Islands of sanity.
- ◆ Our collective responsibility is to co-create a new order with a moral economy, a real democracy, and a spiritual culture.

# FDR Four Freedoms, 1940

- ◆ Freedom of speech and expression
- ◆ Freedom of worship
- ◆ Freedom from want
- ◆ Freedom from fear
- ◆ Henry Wallace: 'No nation has the God-given right to exploit other nations.' Opposed to imperialism.

# How to act: Work is the application of Love

- ◆ Act like light – it gives you its life
- ◆ Act like the apple tree – it gives itself to all
- ◆ Act like the source – it distributes itself to all
- ◆ Be grateful for everything in order to receive everything
- ◆ Work is the application of love

# Three Rules for Action:

- ◆ Can I do this for love towards God?
- ◆ Can I do this for the good of my soul?
- ◆ Can I do this for the good of my neighbour?

# Thy Kingdom Come

- ◆ This means serving Wisdom with real knowledge
- ◆ Accomplish the will of God = make space for Truth within
- ◆ Ask and you shall receive – engage heart, love
- ◆ Seek and you will find – engage mind, wisdom
- ◆ Knock and it will open – engage will, freedom

# Life Review

- ◆ One day, when you return to the invisible world, you will be examined on how you have applied the law of Love ... you will find yourself confronted by the film of your earthly life, you will see the smallest details and notice the tiniest errors and you will have to reform yourself. You must therefore reflect and concentrate on what you are saying and how you are saying it. Here, you are an actor on stage, being photographed and recorded all the time.

# From Power to Love

- ◆ **Love of Power** - New World Order, Great Reset = fear, militarism, violence, separation, control, surveillance, manipulation, exploitation, servitude, mechanical uniformity
- ◆ **Power of Love** – harmony (Earth), fraternity, service, mutual aid, Golden Rule, non-violence, justice, peace, life for the whole, overcome evil with good, organic unity [Mumford], higher frequency
